

Hamilton Sorter's wall-hung and base cabinets provide multiple storage options and wall-to-wall fit to maximize space utilization in this activity center.

Activity Centers

Activity Centers are the space-saving, multi-use areas where groups of employees come together to pick up mail or faxes, take a coffee break or perform specific tasks such as preparing a presentation. Hamilton furniture solutions increase the functionality of these spaces.

Copy areas, usually centrally located for accessibility by a large number of employees are often a prime location for mail distribution. Hamilton cabinetry can consolidate copier, printer and fax support, storage and satellite mail distribution in a variety of space-efficient designs.
