

Copy Center cabinetry can provide a variety of storage options in a compact footprint. This installation incorporates Satellite mail sorting shelves in addition to copier supply storage.

Copy Centers

Hamilton Sorter Copy Center furniture provides support for desk-top binding and other operations, space for toner and copier supplies, and storage for bulk and broken reams of paper.

Our Copy Center furniture is designed to provide a full range of size, storage and mounting options, with Sized-to-Fit construction to maximize productivity in tight or awkward spaces. Unencumbered worksurfaces, necessary for functions like collating, are also available on lockable wheel console bases for flexibility. And our standard furniture components are easily modified to meet any non-standard space or functional project requirements.
