Reduce Costs

Spacesaver Solutions Inc. is the leading national provider of commercial business storage solutions.

Our dedicated team of Storage Experts work with clients to understand their unique needs, and design custom storage solutions that allow organizations to do what they do best.

Why Us?

Our team is comprised of storage experts, design consultants, records management gurus, project managers, service technicians, installation crews, and marketing and administration staff who go above and beyond to ensure our clients are always 100% satisfied.

As the experts in storage we can provide a customized design and installation plan for virtually any storage vision or challenge - we specialize in developing storage and workflow solutions.

Clients

LIBRARY STORAGE

Today's campuses are evolving. The idea of a library simply as rows of books and silent study are quickly evaporating. These areas are now bustling community centers, responsible for educating and inspiring students.

Our Storage Experts will meet with you to evaluate your challenges and create custom library solutions that can integrate with your campus' design. Whether you want custom acrylic end panels with eye catching illumination, shelving that will fit in with historical millwork, or shelves on casters that can be moved around – we can do it all!

UNIVERSITY OF GUELPH

"The professionals at Spacesaver Solutions were creative and highly committed to meeting our needs. They did a great job on the project and we consider them partners that we would be happy to work with again."

- Kelly Bertrand, Director, University of Guelph

-  Simplify Management
-  Improve Security

cycle-safe

On Demand Secure Bicycle Parking From Your Mobile Device

CUSTOM LOCKER STORAGE

CHARGING LOCKERS

The need for custom locker storage is greater now than it has ever been before.

Custom Lockers offer a place to store student belongings, and charge laptops and devices. They create a way for college/university students to ensure packages get to them safely, a space for athletes to prepare for game day, and a secure space to park and store bikes between classes. The uses and possibilities are endless!

We offer a wide range of custom locker solutions with a variety of different locking options to suit your needs. Our Storage Experts will work with you to learn your requirements and design a custom solution for your space.

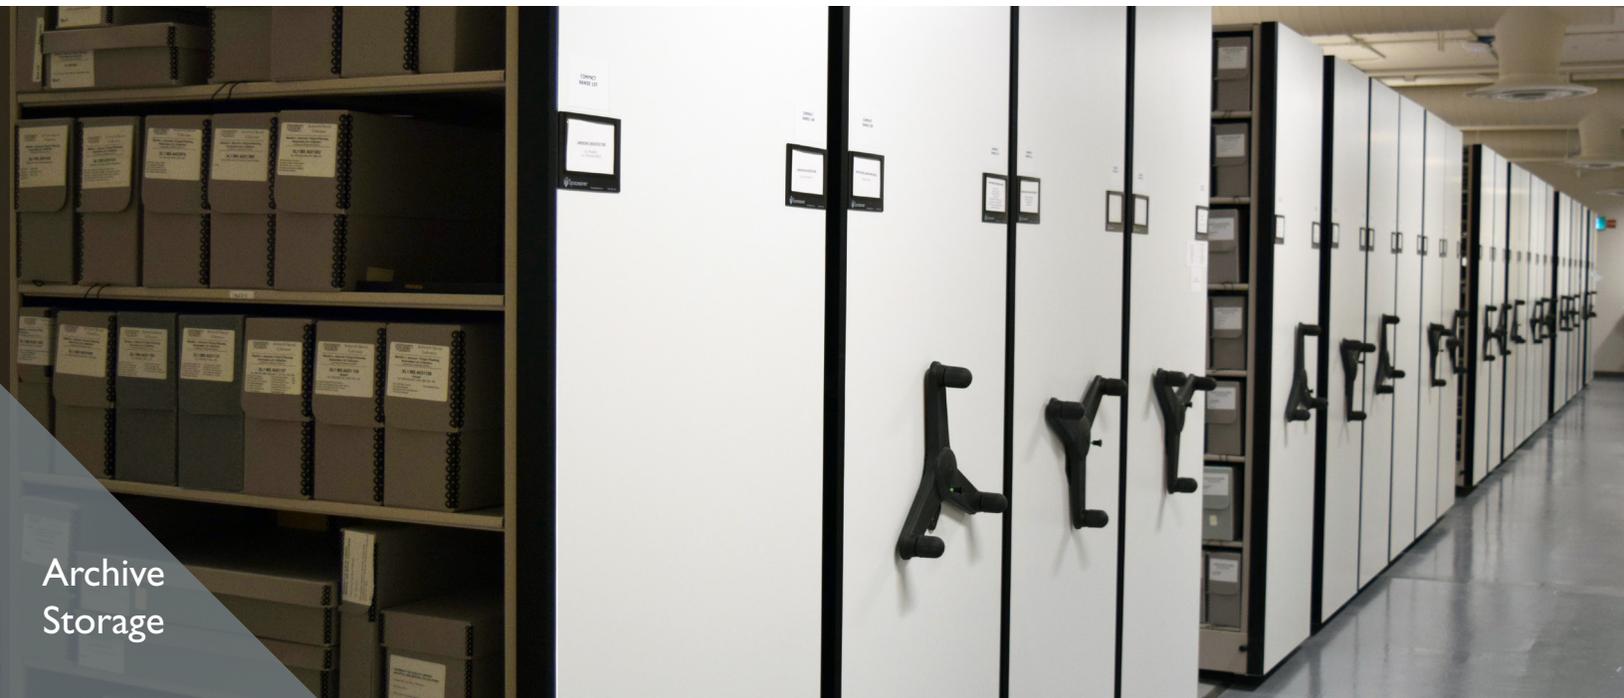

OFFICE STORAGE

Student Records

Archive Storage

ATHLETIC STORAGE

An equipment room is much more than a storage space; it's a recruiting tool and a way to ensure the safety and longevity of the equipment your program has invested in. We'll work with your team to design a system that makes the most of your space, allows you to retrieve equipment, helmets, uniforms, repair parts and tools quickly, and serves as a source of pride for your program— so you can keep your focus on serving student athletes and winning games.
