Athletic Storage Solutions

# We're The Storage Experts!

Clever Storage Solutions That Create Amazing Experiences

Maximize Space

Improve Efficiencies

Mitigate Risk

Reduce Costs

Spacesaver Solutions Inc. is the leading national provider of commercial business storage solutions.

Our dedicated team of Storage Experts work with clients to understand their unique needs, and design custom storage solutions that allow organizations to do what they do best.

## Why Us?

Our team is comprised of storage experts, design consultants, records management gurus, project managers, service technicians, installation crews, and marketing and administration staff who go above and beyond to ensure our clients are always 100% satisfied.

As the experts in storage we can provide a customized design and installation plan for virtually any storage vision or challenge - we specialize in developing storage and workflow solutions.

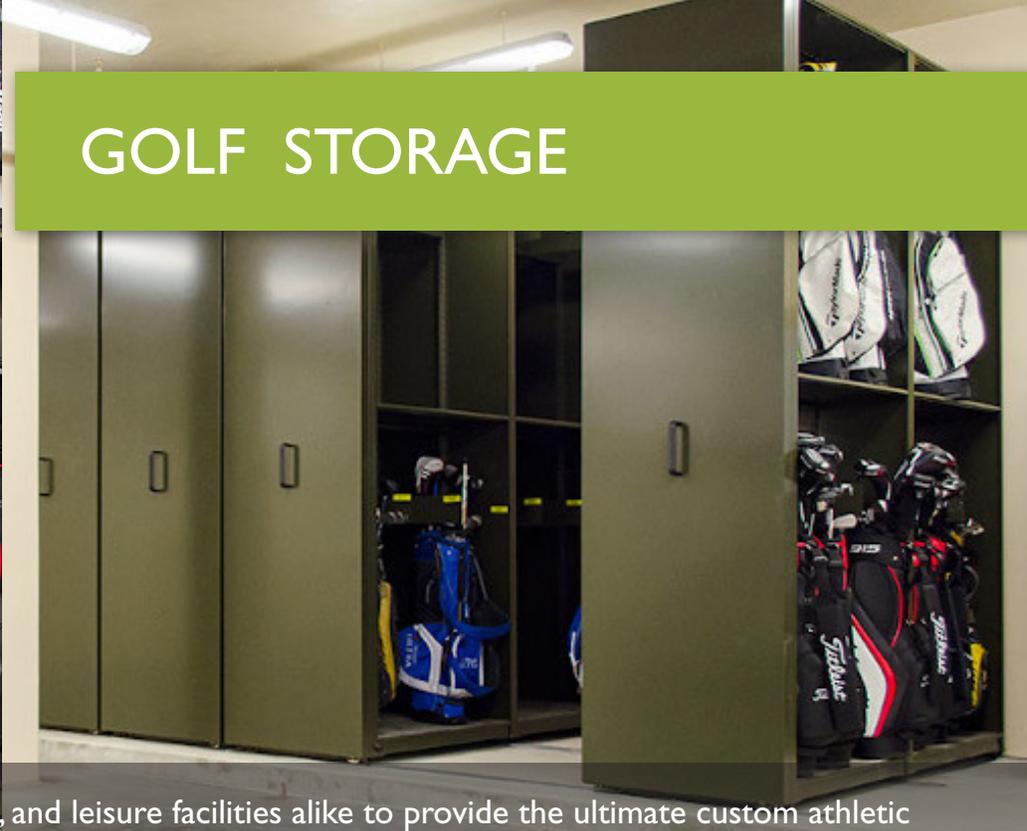

## Clients

[www.spacesaver.ca](http://www.spacesaver.ca)

# GOLF STORAGE

We work with golf courses, fitness clubs, and leisure facilities alike to provide the ultimate custom athletic equipment storage and management solutions. It may seem like you never have enough space for all your gear, but we will show you how to maximize your footprint to its full capacity.

# TORONTO BLUE JAYS

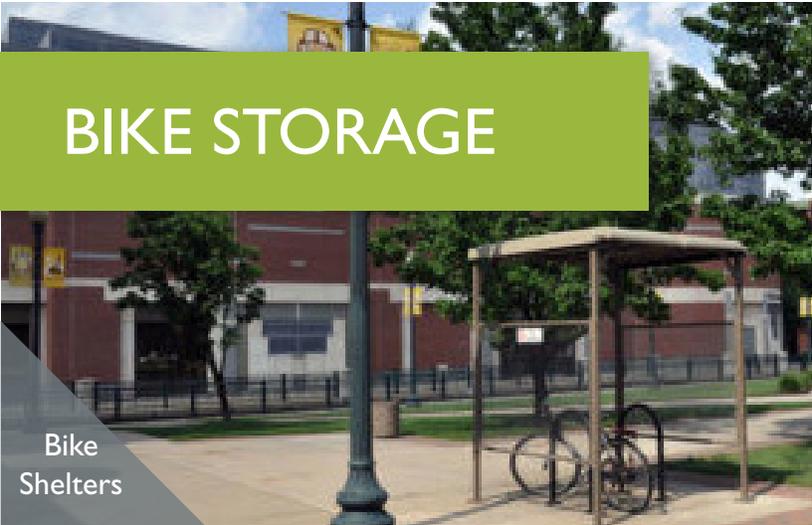

*Our Storage Experts designed a powered high density mobile system to store the team's uniforms, hats, helmets, batting gloves, shoes, bats, and jackets. This system features custom branding, and allows the team to store all their needed equipment in the same footprint without expensive renovations or expansions.*

# SPORT STORAGE

# BIKE STORAGE

Bike Shelters

ProPark

Quad

Wall Mount

# CUSTOM LOCKER STORAGE

# LOCK SOLUTIONS

Digital Combination Lock

Mechanical Combination Lock

RFID

The need for custom locker storage is greater now than it has ever been before.

Custom Lockers offer a place to store personal belongings, and charge laptops and devices. They create a space for athletes to prepare for game day, and peace of mind for clients when using the athletic facilities. The uses and possibilities are endless!

We offer a wide range of custom locker solutions with a variety of different locking options to suit your needs. Our Storage Experts will work with you to learn your requirements and design a custom solution for your space.

# SUSPENDED STORAGE

# TORONTO RAPTORS

*We designed two high density storage systems for training equipment and supplies, movable worktables, and a secure locker to hold players' valuables when training at the facility. "The Raptors love their Spacesaver storage solution!"*

*- Curtis Andrade, Assistant Equipment Manager, Toronto Raptors*

# EQUIPMENT STORAGE

An equipment room is much more than a storage space; it's a recruiting tool and a way to ensure the safety and longevity of the equipment your program has invested in. We'll work with your team to design a system that makes the most of your space, allows you to retrieve equipment, helmets, uniforms, repair parts and tools quickly, and serves as a source of pride for your program— so you can keep your focus on serving student athletes and winning games.
